

INTERNATIONAL CONGRESS ON SUSTAINABLE URBAN DEVELOPMENT

PARIS

1^{RST} FEBRUARY 2022

CET Time

Virtual congress for all participants

Ministry for the Ecological Transition, Hôtel of Roquelaure, 246 Boulevard Saint-Germain 75007 Paris France

The event will be translated in French and English

OBJET

The multi-scale dimension of urban stakes and the globalization of cities led to reshaping of urban and territorial development impacts both at regional and international scales. International and territorial cooperations are therefore at the heart of urban problematics to be addressed. It is in that frame that the objectives defined on the urban agendas have to get articulated around crossing-points between local, national, regional and global scales in order to ensure desirable futures for all. The organization of this even is then an opportunity for France, also in the occasion of the French Presidency of European Union, to renew and highlight its commitment.

This event will be the occasion to share with other states members, the tools and methods developed by France and which are part of the dynamic launched by the roadmap « Living in France tomorrow » (EcoDistricts, Workshops of Territories, Demonstrator for Sustainable City, citizens conference, quality of use in housing and for the living environment...). A perspective could emphasize the « New Leipzig Charter » adopted under the German presidency in 2020 for « Living in Europe Tomorrow », funded on the share of know-how of European countries, with the deployment of tools, initiatives, methods implemented by France, around four challenges on sustainable territories: sobriety, resilience, inclusion and innovation.

The afternoon objective, more operational, will be to present and debate about the proposals of some of the thematic working groups carried by members of the French Partnership for Cities and Territories (PFVT) for the World Urban Forum in June 2022 in Katowice in Poland, and how it can contribute to the implementation and articulation with the New Urban Agenda and the European Urban Agenda, thanks to partnerships and the implementation of common experimentation between stakeholders and member countries.

*To be confirmed

8.30 AM. OPENING FOR SPEAKERS
